

SampleDental Messages-On-Hold™ Scripts

INTRODUCTION

Messages-On-Hold™ is an effective vehicle for dentistry institutions to promote new services and provide information that educates and guides patients. This document provides an example of an actual Messages-On-Hold™ script for a dental practice, as well as a compilation of individual sample messages for a variety of dental institutions, including:

- Cosmetic Dentistry (bilingual)
- Dental Spa
- Dental Laboratory

These examples are intended to provide a starting point for thinking about your own messaging. We are happy to provide additional examples and work with you to tailor your messages to your organization's unique services.

A TYPICAL MESSAGES-ON-HOLD SCRIPT FOR A DENTAL PRACTICE (Full Script)

ABC Dental Care is now XYZ Family Dental. Same practice, same doctors, just a new name. *(pause)* At XYZ Family Dental, we offer a wide range of family dental services including preventative, fillings, crowns, braces, root canals, cosmetics, and much, much, more! Whether you need a routine cleaning, a simple filling, or more comprehensive dentistry, we make every effort to ensure that your treatment is complete, comfortable, and affordable. All services are provided by licensed general dentists.

For your convenience, XYZ Family Dental has two offices one in <Yourtown> on Main Street just south of Cross Street and the other, in Nearville, on the corner of Park Rd and State Highway 296. For contact information, directions and much more visit us at XYZFamilyDental dot com

Thank you for holding. We will return as quickly as possible to attend to your call.

Many people are anxious about going to the dentist. To help you feel more comfortable, we offer nitrous oxide, otherwise known as laughing gas, and pre-medication with anti-anxiety medications.

(pause) **And**, don't forget to relax in our massage chair.

Ask one of our knowledgeable and friendly representatives for more information when we return to the line in just a moment.

At XYZ Family Dental, we use the Diagnodent (*pron: die-AG-no-dent*), a laser cavity detector that allows us to identify and treat cavities earlier therefore minimizing the size of fillings, and sometimes eliminating the need for shots. As a result, more tooth structure is retained, and the long-term health of the tooth is increased.

Have your teeth shifted since having braces as a teenager or have you just always wanted straighter teeth? If so, Invisalign is a wonderful option, especially for adults! It requires no wires or brackets and can help you get that smile you have always wanted. Be sure to ask your doctor if Invisalign is right for you.

Thank you for calling. Please hold and we will be with you as quickly as possible.

ABC Dental Care is now XYZ Family Dental. Same practice, same doctors, just a new name. We accept most insurance plans and we also offer a variety of financial options including payment by credit or debit card. We also offer financing through Care Credit. If you have dental insurance, you know that it can be very complex. Our experienced team can provide valuable assistance in helping you understand and maximize your benefits. *(pause)*

XYZ Family Dental also offers a wide variety of cosmetic services designed to enhance your smile. Please ask us about whitening, bonding and porcelain veneers, when we return to the line in just a moment.

XYZ Family Dental is going wireless! We are excited to offer Invisalign, the invisible way to straighten your teeth. Invisalign provides the opportunity to straighten your teeth without wires and brackets. Check out our wireless plan with a free consultation.

XYZ Family Dental welcomes new patients and take we pride in the fact that most new patients are referred by our existing patients. We thank you for your continued expressions of confidence. For more information about our practice, or answers to frequently asked questions, you may also visit us at XYZFamilyDental dot com.

It seems everyone's going digital these days... At XYZ Family Dental, we have used digital x-rays for several years. What does that mean to you? Significantly less radiation and a greater ability to diagnose problems, while they are still small. With digital x-rays, the benefits to your health are clear.

Please hold for just a moment, and we'll give your call all the time you need.

Your smile is one of the first things people notice. At XYZ Family Dental, we offer rapid in-house whitening! You can enjoy a brighter smile with just a single rapid whitening appointment. This also includes a custom fit take home kit for touch-ups afterwards that you can use in the comfort of your own home. *(pause)* Do you or someone you know have a loose-fitting denture or are you missing any teeth? Dental Implants may just be the answer! Strong, durable, and most of all, comfortable. Let XYZ show you how these can improve your life!

First tooth first checkup! Bring your little ones in as soon as they get their first tooth for a happy visit. *(pause)* When should a child have their first orthodontic evaluation? The sooner the better! In fact, it is recommended that a child be evaluated before the age of seven. While some problems can wait, others are best addressed early. Our team of highly skilled general dentists offer free orthodontic consultations, so if you have questions about your child's orthodontic care, please ask us. We're here to help!
